LIST OF DEBTS

Please list all of the debts you have except your current utilities and insurance payments. Even include the debts that you may want to keep. Failure to tell a court about all of your debts can get you in serious trouble. Be as complete as possible so that we can give you the most accurate advice for your situation.

Who and how much you owe are very important. Please take the time to fill out this form before you come in for your appointment. Do not just bring your bills and/or your credit report. If you do not take the time to fill out the form, you may have to reset your free appointment until you have completed the list. So please have it filled out the best you can before you get to the office.
